GRANDPRÉ (150-200 plaintext letters)

An 8x8 square is filled with 8-letter words horizontally. The first letter of each word when reading vertically must form a ninth word. Each plaintext letter is represented by a 2-digit number; the coordinates are taken from the square. A letter appearing more than once in the square may be represented by more than one digit-pair. Unless otherwise specified, ALL 26 letters appear in the square.

While an 8x8 square is traditional and preferred, it is not required. The square can be no smaller than 6x6 and no bigger than 10x10. In the case of the 10x10, words are numbered 0-9.

```
1 2 3 4 5 6 7 8
1 L A D Y B U G S
2 A Z I M U T H S
3 C A L F S K I N
4 Q U A C K I S H
5 U N J O V I A L
6 E V U L S I O N
7 R O W D Y I S M
8 S E X T U P L Y
```

pt: The first column is the keyword.
