JA P-Sp-1: Are they Rock Bands?

RISHU – Richly Innovative Solving Help Utility

RISHU - Vowel behavior from Helen Fouche Gaines "Cryptanalysis"

- 1. A, E, I, O, are high frequency, U is moderate.
- 2. Letters contacting low frequency letters are usually vowels.
- 3. Letters showing a wide variety of contact letters are usually vowels.
- 4. In repeated digraphs, one letter is usually a vowel.
- 5. In reversed digraphs, one letter is usually a vowel.
- 6. Doubled consonants (c) usually flanked by vowels (v), and vice versa. (cvvc or vccv).
- 7. It is unusual to find more than 5 consonants in succession.
- 8. If the CT letter with the highest frequency is assumed to be E. Any other high frequency letter that contacts it often cannot be a vowel.
- 9. E is the most frequent vowel and rarely contacts O. Both double freely.
- 10. "A" may follow but rarely precede E.

Young Tyro Newsletters

In addition to this Senior Young Tyros Newsletters, we have two additional Newsletters published bimonthly for primary and secondary grade students. If you would like a family or friend youngster to receive one of these, please send us their name and E-Mail address.

The *Tyro Tutorial* is now available at our ACA web site under *Resources*. It describes the solution process to some thirty different cipher types and includes an appendix with a Railfence Template, Polyomino Congruent Squares by APEX DX, a comprehensive listing of Null variables by BION, an Algorithm process description, Foursquare Cipher digraph frequencies by RISHU, use of Google as a solving tool and the use of cryptology to bridge generation communication gaps while increasing a youngster's mathematical interest.

Universal PhoeBee Circular Cipher Slide – by **PHOENIX & HONEYBEE** – Used to solve Vigenere cipher types.

Free Code and Cipher Books - Place an order. The mailing is also free.

American Magic - Levin Bacon Bi-literal Cypher - Gallup Codes and Ciphers - Wrixon Hitler's Spies - Kahn Invitation to Cryptograms - Williams Kahn on Codes - Kahn Reader of Gentlemen's Mail - Kahn Secret Codes & Ciphers - Kohn Secret Codes & Messages - Beal
